efforts of Dr. Lonnelongue, an eminent specialist of Paris, to give intelligence to the child could neither walk nor stand, and never smiled or took notice of any thing. The doctor concluded that the abnormal narrowness of the head obstructed the growth of the brain, and in May last he made an incision in the center of the skull and cut a piece of required by the Superintendent of said Asylum: bone from the left side. The result was marvellous. Within less than a monththe child could walk, and she has become quite bright, playing, smiling and taking notice of everything around her.
